

Thank you for contacting Vision Rehabilitation Services of Georgia. Since 1983, we have been teaching people who are visually impaired or blind how to adapt to their vision loss so that they may function independently in their environments.

Please follow these steps:

1. Complete the enclosed application and return it in the pre-addressed envelope provided for you.
2. Please complete the top portion of the doctor/medical information and release forms, sign both and distribute to your doctor. The doctor will then fax their reports to us.

In order to schedule a Low Vision Evaluation with us you need to have had a dilated eye examination within the past 2 years. If you are totally blind, there will be no Low Vision Evaluation.

Once your paperwork has been received by our office, we will call you to schedule your appointment. When you come to your appointment, please bring any magnifiers, glasses, glare control shades, or other aides you are currently using.

We are happy to answer your questions. Please call us at 770-432-7280.
